AUTHOR AND SUBJECT INDEX

PCI JOURNAL, Volume 38, 1993

The following is an index of all reports, papers, design-construction articles and discussions which have appeared in the PCI JOURNAL during the past year. This index is the second supplement to the PCI JOURNAL 10-Year and 25-Year Indexes which comprehensively reference all reports, articles and discussions published in the JOURNAL from V. 1, No. 1, May 1956, through V. 36, No. 6, November-December 1991.

Listed first is the Author Index which includes, in alphabetical order, the names of all contributing authors for 1993, followed by the title, volume, number, date of publication and page numbers for each report, article or discussion.

The material is then classified in chronological order under various subject categories. Depending on their scope, some articles are listed under more than one heading.

Many recent back issues of the PCI JOURNAL are still available. In addition, several of the more important articles are available in reprint form. In cases where individual reprints are unavailable, copies of articles can be obtained at cost of reproduction.
